

Buxus microphylla var. Japonica 'Green Beauty'
Green Beauty Japanese Boxwood
Mature size: 4-6' H x 4-6' W
 Moderate grower, easily pruned into a formal hedge or topiary with electric hedgers. Best in full sun to part shade. A very clean hedge with small, inconspicuous flowers. **Best choice for small hedges.**

Ligustrum japonicum 'Texanum'
Waxleaf Privet
Mature size: 6-9' H x 4-6' W
 Moderate growing and dense; **useful for quick screening** or as a windbreak. Can also be trained into topiary form. Plant in full sun or part shade. Flowers bloom in late spring to early summer, are very fragrant, and attract bees. Dark berries attract birds.

Podocarpus gracilior
Fern Pine
Mature size: 20-60' H x 10-20' W
 Moderate to fast growing, tall hedge, low maintenance. Plant in full sun to part shade. **Soft, gray-green, wispy foliage.** Popular, very versatile and will tolerate a variety of watering conditions. Usually free of pests and diseases.

Prunus caroliniana
Carolina Cherry Laurel
Mature size: 20-30' H x 15-25' W
 Moderate to fast growing, clean-looking evergreen shrub with **glossy, deep green leaves** and small, fragrant, cream-colored flowers. Plant in full sun to part shade. Little pruning needed. Birds are attracted to the small black berries.

Pittosporum tenuifolium
Kohuhu
Mature size: 15-25' H x 10-15' W
 Fast growing, dense, evergreen shrub. Plant in full to partial sun. Small, glossy, medium-green leaves with dark brown stems and small, fragrant flowers. Tolerates seaside conditions. Cultivars to consider include 'Silver Sheen' (silvery leaves) and 'Marjorie Channon' (variegated leaves).

Prunus laurocerasus
English Laurel
Mature size: 15-30' H x 15-30' W
 Fast growing, making a quick, attractive privacy screen or formal hedge. Plant in full to part sun. Large, leathery, deep green leaves. Fragrant, creamy-white flowers. Recovers quickly from shearing, and **tolerates salt spray.**

For optimal plant health, allow enough space between plants to reach mature size. Plant more closely for an instant privacy hedge. These varieties are recommended for their versatility. Consult your landscape professional for site-specific recommendations.
